Dear Sir:

Your letter of March 6 has just reached us, and we are hastening to reply as we are very much surprised that our representatives should not have given you immediate service in this matter.

We have written directly to them and you will, no doubt, hear from them in the very near future.

No doubt the difficulty which you encountered was due to either rough handling in shipment between Lima and your office, or to rough handling after it arrived at destination, but whatever the cause we want to see that you are entirely satisfied with the product and you will hear from our representatives promptly.

Yours very truly,

THE MOSLER SAFE CO.
