THE TOWN OF BATH
A HISTORY
By J. G. BURTON
The town of Bath is one of the most interesting and beautiful in the south of England. It is situated on the banks of the Avon, and is famous for its hot springs. The town has a long history, and has been the seat of power for many centuries. It was the capital of the kingdom of Wessex, and was the residence of King Alfred the Great. The town was destroyed by the Danes in 875, but was rebuilt and flourished again. It was the seat of the Bishop of Bath, and was one of the most important towns in the country. The town is now a beautiful city, with many fine buildings and a large population. It is a popular resort, and is visited by many people every year.
